

GO WITH THE *Flow*

R-414B / HOT SHOT REPLACES:

R-12, R-134a, R-401A, R-401B, R-409A, R-416A, R-500

TRUSTED:

Hot Shot is the #1 direct replacement for R-12. It is one of the most reliable, versatile and user friendly refrigerants ever made.

ICOR
INTERNATIONAL
"making your life easier™"

SAFE:

Hot Shot is classified by ASHRAE as (A1) nontoxic and nonflammable.

It is also EPA SNAP accepted.

THE OPERATING CHARACTERISTICS YOU NEED.

Use it for low, medium, and high temperatures. Use it in autos, aircraft, and boats. Use it in air-conditioning and refrigeration systems - anywhere you used to use R-12. There is simply no need to inventory multiple gasses.

No system modifications required. No inconvenient oil changes.

You're good to go for the entire R-12 temperature range.

Plus, no expensive parts retrofits are required.

HOT SHOT IS ALSO 5% LESS EXPENSIVE THAN RB276!

Users must possess an EPA 608 or 609 certification to purchase and/or use this product.
