TRACPIPE TRAINING AND CERTIFICATION COURSE

TracPipe
Flexible Gas Piping by OmegaFlex

Course Description:

Learn all about the advantages of TracPipe - a flexible stainless steel pipe coated with a polyethylene plastic jacket. Used for natural gas and propane installations. TracPipe's "auto-flare" fittings provide faster installation without special tools and give a good metal-to-metal seal. The class will conclude with a 20 question test to receive TracPipe Certification, which is required for all installers

MONDAY, OCTOBER 14TH
5:00PM - 7:00PM

This class is **FREE** of charge.
Snacks and beverages will be provided.

Sign-up in store or contact Marketing Coordinator
Leslie Beemer by e-mailing
leslie.beemer@johnstonesupply.com
or calling (865) 583-1121 or (800) 826-4116 ext. 1121.

UNDERSTANDING SYSTEM CONTROLS

White
Rodgers

Course Description:

Learn how the White-Rodgers System Controls work together to maximize efficiency. With an emphasis on their use in Goodman Equipment, this course will cover everything from Thermostats, Valves, Limit Controls and Relays to Igniters, Ignition Systems, Air Pressure Switches and Fan Controls. Not only will you gain a better understanding of all the available types of system controls, but there will be an in-depth overview of how they are related and working together within the system.

WEDNESDAY, OCTOBER 16TH
1:00PM - 3:00PM

This class is **FREE** of charge.
Snacks and beverages will be provided.
